

CONTENTS

Introduction.....	iii
-------------------	-----

Agriculture, Soil, Environmental and Marine–Aquatic Microbiology

A microcosm study on the die-off response of the indicator bacteria, *Enterococcus faecium* and *Enterococcus faecalis*

Juan Du, Hofung Cheng, Ken T. M. Wong and Stanley C. K. Lau.....	3
--	---

***Ampelomyces quisqualis* Ces. ex Schlecht. as an alternative measure of protection**

Miroslava Markovic and Snezana Rajkovic.....	8
--	---

An individual-based model for dealing with organic amendments and mineral nitrogen soil fertilizations

A. Gras, J. Comas and M. Ginovart.....	13
--	----

An investigation of mixed microbial populations for use in the treatment of waste fats, oils and greases

M. Tzirita and B. Quilty.....	18
-------------------------------	----

Anti-oxidative stress enzymes in golden chanterelle (*Cantharellus cibarius*)

Jacqueline Keyhani and Ezzatollah Keyhani.....	23
--	----

Application of flotation and biodegradation to eliminate persistent organic pollutants in the influent stream of Cerny Prikop

Iva Janáková and Hana Vojtková.....	28
-------------------------------------	----

Bacterial assessment and antibiotic susceptibility of pathogenic bacteria of Domat Al-Jandal Lake, Saudi Arabia

M. A. Al-Ruwaili.....	33
-----------------------	----

Bioaugmentation of microbial consortia and supplementation of bulking agents in removal of crude oil from soil

A. Hamzah, S. N. Md. Salleh, S. L. Lee and S. Sarmani.....	39
--	----

Biodegradation potential and molecular detection of the catechol 1,2-dioxygenase gene of actinobacteria isolated from wastewater treatment plants in Spain

A. Soler Hernández, M. D. Guerrero Torres, J. L. Alonso Molina and G. Cuesta Amat.....	44
--	----

Bioremediation of direct dyes in simulated textile effluents by paramorphogenic form of *Aspergillus oryzae*

C. R. Corso, E. J. R. Almeida, G. C. Santos, L. G. Morão, G. S. L. Fabris and E. K. Mitter.....	49
---	----

Biosurfactant production by *Rhodotorula glutinis* UCP 1555 using industrial wastes

D. L. R. Ribeiro, R. F. Silva Andrade, A. A. Antunes, A. Marques Silva, F. S. Yuri Max and G. M. de Campos-Takaki.....	55
--	----

Contributions of methanogenic Archaeobacteria in community-driven anaerobic chromate reduction by Yellowstone National Park hot spring microorganisms

B. J. Chrencik and T. L. Marsh.....	60
-------------------------------------	----

Correlation between direct viable count of Gram-negative bacteria and biological oxygen demand in marine microcosms polluted with gasoline

S. Ghiță and I. I. Ardelean.....	65
----------------------------------	----

Correlation between spore-forming bacteria and physicochemical parameters in water samples from irrigated rice ecosystems in Southern Brazil

Michele Pittol, Victor Hugo Valiati and Lidia Mariana Fiuza.....	70
--	----

Development of a typing scheme for the characterization of the bacterial population associated to summer squash (<i>Cucurbita pepo</i> ssp. <i>pepo</i>) cultivated in green-houses in Almeria (Spain) A. Fayos, O. López-Montoya, M. T. Urrutia, M. T. Blanco, A. Pérez-Vicente, I. Domínguez, R. Lozano and R. Font.....	76
Diuron determines <i>Saccharomyces cerevisiae</i> UE-ME₃ survival at beginning of exponential phase H. Tenda, I. Alves-Pereira and R. Ferreira.....	80
Dynamics of symbiotic bacteria populations elicited by their co-migration into the novel environments together with the host plants N. A. Provorov, O. N. Kurchak, E. E. Andronov, O. P. Onishchuk, A. Y. Borisov, E. P. Chizhevskaya, V. A. Zhukov, T. S. Naumkina, A. O. Ovtsyna, N. I. Vorobyov and I. A. Tikhonovich.....	84
Ecology of <i>Bacillus</i> sp. and <i>Lysinibacillus</i> sp. in rice field soils from Southern Brazil V. C. Reali and L. M. Fiuza.....	89
Effect of <i>Bacillus</i> sp. isolated from the soil against some <i>Fusarium</i> strains Emine Dincer, Mehmet Salih Dağ and Merih Kıvanc.....	94
Effect of biofumigation and repeated biosolarization on soil fungal communities in pepper crops M. A. Martínez, M. C. Martínez, J. C. Tello and A. Lacasa.....	99
Effect of initial pH on bio-hydrogen production from enzymatic hydrolysate of acid-pretreated sugarcane bagasse by elephant dung S. Sangyoka, A. Reungsang and S. Sittijunda.....	104
Effect of <i>rpoS</i> mutation on short-term survival of <i>Erwinia amylovora</i> under nutrient-limited conditions R. D. Santander, M. Monte-Serrano, J. F. Català-Senent, J. J. Rodríguez-Herva, E. López-Solanilla, P. Rodríguez-Palenzuela and E. G. Biosca.....	110
Environmental anthropogenic impact on Polychaeta of Adriatic Sea of the Salento peninsula (Italy) C. Masciopinto, R. La Mantia, M. Forte and M. Gherardi.....	115
Fungicidal effect of polymers Nu Film 17 and Nu Film P S. Rajkovic and M. Markovic.....	121
Glutathione reductase play a key role in the differential response of <i>Saccharomyces cerevisiae</i> UE-ME₃ and IGC-4072 to isoproturon M. Candeias, I. Alves-Pereira and R. Ferreira.....	126
Growth of fungal strains isolated from Livingston Island on phenolic compounds - biodegradation potential Z. Alexieva, H. Yemendzhiev, S. Tossi, E. Krumova, M. Angelova, A. Terziyska, N. Peneva and M. Gerginova.....	131
Growth temperature determines titanium dioxide nanoparticles response by <i>Saccharomyces cerevisiae</i> UE-ME₃ J. Capela-Pires, I. Alves-Pereira and R. Ferreira.....	135
Inhibition of bacterial pyrite leaching by surfactants B. M. Florian and W. Sand.....	140
Isolation of <i>Bacillus thuringiensis</i> strains with cytotoxic activity against MOLT-4, a leukemia cell line A. Espino-Vázquez, A. Gómez-Treviño, L. Galán-Wong and B. Pereyra-Alfárez.....	147
Monitoring infection risk for air and soil borne fungal plant pathogens using antibody and DNA techniques and mathematical models describing environmental parameters A. Wakeham, G. Keane, M. Proctor and R. Kennedy.....	152

New procedure for evaluation of diffuse environmental pollution with aromatic organic compounds based on real-time PCR quantification of degradation potential in microbial communities	
M. V. Brennerova, J. Josefiova, O. Korotkevych, M. Kovar and M. Stavelova.....	157
Petroleum products biodegradation profile similarity evaluated by F test comparison of weekly CO₂ production	
E. D. Bidoia, R. N. Montagnolli and P. R. M. Lopes.....	162
Phosphate solubilization by fungi isolated from alkaline soils	
Vinay Sharma, Rachana Jain and Jyoti Saxena.....	167
Study of dissemination and removal of multidrug resistant <i>Salmonella</i> in two sewage treatment plants from Comunitat Valenciana (Spain)	
A. Jiménez-Belenguer, P. Santiago-Cuellar, M. A. Castillo, Y. Moreno, S. Botella and M. A. Ferrús.....	172
The application of hydrocarbonoclastic bacteria for the bioremediation of weathered crude oil	
C. Bird, E. Adetutu, N. Hancock, C. Lynch, K. Kadali, A. Bueti, A. Truskewycz and A. S. Ball.....	177
The efficiency of glyphosate biodegradation by <i>Pseudomonas (aeruginosa)</i>	
Mehran Hoodaji, Arezoo Tahmourespour and Mozghan Partoazar.....	183
The use of composite fibers for production of biomass carriers	
L. Kriklavova, T. Lederer and V. Jirků.....	187
Variation of metal content in 15 bacteria grown under carbon-, nitrogen-, iron-, and phosphorous-limiting conditions	
M. Martín-Cereceda, V. H. Smith and M. Kyle.....	192

Food Microbiology

A study of the effect of different conditions on the growth of yeasts isolated from green table olives	
F. Pérez-Nevado, M. M. García, A. Hernández, M. J. Benito, S. Ruiz-Moyano and M. G. Córdoba.....	199
Antibacterial effects of <i>Prosopis juliflora</i> occurring in Iran	
T. Naji, M. Hakemi and M. Asareh.....	204
Antibacterial properties of polyvinyl alcohol-rosemary polyphenol blends	
A. Ottombrino, F. Fratianni and F. Nazzaro.....	209
Antioxidant power of <i>Malus domestica</i> juice partially reverses the oxidative effect of vanadium pentoxide in <i>Saccharomyces cerevisiae</i>	
J. Agostinho, R. Ferreira and I. Alves-Pereira.....	213
Application of antimicrobials compounds incorporated into polysaccharides edible films on vacuum packed cooked loin	
M. Vaquero Martín, B. Rubio Hernando, B. Martínez Domínguez and M. J. Sánchez Iglesias.....	218
Assessment of microbial profile and some physiochemical effects during fermentation and production of aerial yam (<i>Dioscorea bulbifera</i>) flour	
C. F. Ezeama, E. Nwachukwu, C. J. Egbu and M. A. Ofoeze.....	223
Bacterial superficial contamination of bovine and ovine carcasses slaughtered at El-Harrach abattoir (Algiers)	
S. Nouichi and T. M. Hamdi.....	226
Characterization of an intracellular β-glucosidase activity from <i>Oenococcus oeni</i> ST81 isolated from wine	
M. T. Alegre Arribas, M. C. Rodríguez Pérez and J. M. Mesas Mesas.....	231

Determination of the presence of <i>Listeria monocytogenes</i> in modified-atmosphere-packaged vegetables by the UNE-EN ISO 11290-1:1997 and Multiplex PCR procedures J. Sánchez, Y. Moreno, R. Montes, J. García-Hernández, E. Domenech, G. Hernández, M. Hernández and M. A. Ferrús.....	236
Development of a DNA microarray for the detection of pathogenic and spoilage bacteria in seafood K. Böhme, P. Cremonesi, M. Severgnini, I.C. Fernández-No, B. Castiglioni and P. Calo-Mata.....	239
Development of a rapid procedure of real-time PCR to detect <i>Listeria monocytogenes</i> in cheese M. M. García Carvajal, A. Rodríguez, F. Núñez, J. Delgado Perón, M. A. Asensio and E. Bermúdez Polo.....	244
Development of PCR for simultaneously detection of <i>Clostridium botulinum</i> types A, B, E, and F Paloma Lorenzo-Lozano, Oscar Jiménez-Mateo, Juan Carlos Cabria-Ramos and María del Valle Jiménez-Pérez	248
Effect of storage temperature on survival of <i>Listeria monocytogenes</i> inoculated on dry cured iberian meat products B. Martínez Domínguez and B. Rubio Hernando.....	253
Effectiveness of sodium hypochlorite washing for the reduction of <i>Listeria monocytogenes</i> in ready to eat lettuce leaves S. Botella, E. Domenech, R. Gómez, R. Montes and M. A. Ferrús.....	258
Fly density and environmental factors in street vendor foods and its contamination with <i>Escherichia coli</i> Dewi Susanna, Zakianis and Y. M. Indrawani.....	263
Fungal contaminations of some foods, their mycotoxin production and effects of antifungal agents on these fungi Derya Berikten and Merih Kıvanc.....	268
Identification and characterisation of <i>Bacillus</i> strains by MALDI-TOF mass fingerprinting and genomic analysis I. C. Fernández-No, K. Böhme, M. Díaz-Bao, J. Barros-Velázquez and P. Calo-Mata.....	273
Microbiological, physicochemical and sensory evaluation of fermented milk from blends of tigernut, soy and groundnut milk H. A. Adeniran and S. H. Abiose.....	278
Occurrence of potentially mycotoxin producing fungi in wheat grain grown in different agro-climatic Spanish regions F. M. Valle-Algarra, E. M. Mateo, R. Mateo-Castro, J. V. Gimeno-Adelantado and M. Jiménez.....	284
Predictive study of climate change impact on type B trichothecene production by isolates of <i>Fusarium graminearum</i> and <i>F. culmorum</i> infecting wheat in Spain E. M. Mateo, F. M. Valle-Algarra, F. Mateo, M. A Esparza and M. Jiménez.....	289
Rapid differentiation of <i>Enterococcus</i> species by MALDI-TOF mass spectrometry M. Quintela Baluja, K. Böhme, I. C. Fernández-No, S. Morandi, C. Franco, J. M. Gallardo, J. Barros-Velázquez and Pilar Calo-Mata.....	294
Resistance to biocides among bacteria isolated from vegetable foods M ^a . J. Grande Burgos, R. Pérez Pulido, R. Lucas and A. Gálvez.....	299
Role of yeast in the persistence of pesticides during the fermentation of vegetable products G. Gallardo, A. Martín, A. Hernández, F. Pérez-Nevado, R. Casquete and M. G. Córdoba.....	304
Stimulatory effect of novel polyphenol-based supplements from olive mill waste on the growth and acid production of lactic acid bacteria I. Giavasis, E. Tsante, P. Goutsidis, K. Papatheodorou and K. Petrotos.....	308
Transformation of monoterpene alcohols, such as nerol and geraniol, with <i>Aspergillus niger</i> in yeast-malt medium T. Tsuruta.....	313

Industrial Microbiology. Methods. Quantitative Models and Bioinformatics

An innovative growth strategy for propagation and bacteriocin production of <i>Lactobacilli</i> M. P. Zacharof and R. W. Lovitt.....	321
An overall study of the microbial ecosystem of pigs liquid feeding systems M. Dujardin, A. Elain, T. Lendormi, M. Le Fellic and O. Sire.....	327
Automated cryobank of microorganisms: Unique possibilities for long-term authorized depositing of commercial microbial strains V. Safronova and I. Tikhonovich.....	331
Bioinformatic analysis of the <i>Vibrio diabolicus</i> genome for an exopolysaccharide biosynthesis locus V. Boursicot, G. LaPointe, C. Sinquin, J. Ratiskol, S. Collicec-Jouault and C. Delbarre-Ladrat.....	335
Biomass and lipid production by <i>Cunninghamella elegans</i> UCP 542 using glycerin as carbon source G. K. Barbosa Silva, R. M. Oliveira Brandão, M. C. Mota Lins, B. G. Campelo, A. A. Barbosa Silveira, G. K. Novais Santos, D. M. A. Ferraz Navarro, K. Okada and G. M. Campos-Takaki.....	339
Biosurfactant production by <i>Mucor circinelloides</i> using apple peel, vegetable oil and corn steep liquor as substrate L. M. L. Acioly, A. A. Barbosa da Silveira, M. N. Anjos, G. K. B. Silva, M. V. Leite, K. Okada and G. M. Campos-Takaki.....	344
Biosurfactant production by <i>Pantoea</i> sp in submerged fermentation using pineapple peel as an alternative medium F. C. G. Almeida, C. I. M. Lins, A. M. Vieira, C. J. Vilar JR, M. C. Mota Lins, G. M. Campos-Takaki and E. B. Tambourgi.....	348
Biosurfactant production by <i>Rhizopus arrhizus</i> using agro industrials substrates as alternative medium M. C. Freitas Silva, P. M. Souza, A. A. Antunes, A. Cardoso, C. I. M. Lins, A. C. L. Batista, T. C. M. Stamford and G. M. Campos-Takaki.....	353
Biosurfactant production by <i>Rhodotorula glutinis</i>: Emulsifying property and stability F. S. Yuri Max, R. F. Silva Andrade, A. Marques Silva, D. L. R. Ribeiro, A. M. A. T. Jara, A. A. Alencar, G. M. de Campos-Takaki and N. B. Gusmã.....	358
Biosurfactants production by <i>Candida glabrata</i> strains using industrial wastes as carbon and nitrogen sources R. A. Lima, R. F. Silva Andrade, A. A. Antunes, H. A. Casullo, A. M. A. T. Jara, L. R. R. Berguer and G. M. de Campos-Takaki.....	362
Brazilian biodiversity in a culture collection devoted to the identification and preservation of microorganisms useful in environmental, industrial and applied microbiology I. O. Moraes, R. O. Moraes and R. O. M. Arruda.....	367
Cellulase production by <i>Penicillium</i> sp. strain IS-07 using agro-industrial by-products M. A. Ferreira, J. P. Andrade, J. C. Santos, G. G. S. Lira and R. P. Nascimento.....	372
Chitin and chitosan produced by <i>Cunninghamella elegans</i> using alternative medium–coconut water Lucia Raquel Ramos Berger, Horacina Maria de Medeiros Cavalcante, Thayza Christina Montenegro Stamford, Marta Cristina de Freitas da Silva, Carlos Eduardo V. de Oliveira, Bruno Filipe Carmelino Cardoso Sarmiento and Galba Maria de Campos-Takaki.....	377
Comparison of lovastatin synthesis using glucose and lactose by metabolic flux analysis G. Backliwal, S. Kumar and J. Gomes.....	382
Effect of iron concentration in growth medium on poly β-hydroxybutyrate production in <i>Azotobacter chroococcum</i> and physical and mechanical properties of the polymer S. Gonta, L. Savenkova, I. Krallish, A. Dzene, V. Tupureina and E. Kirilova.....	388

Formulation of the media of waste ice cream for the production of lipase by <i>Bacillus licheniformis</i> (UCP 1014) L. L. P. Tavares, A. A. Alencar, J. C. Vilar Jr, M. A. Silva, A. A. Antunes, G. M. de Campos Takaki and C. A. Alves da Silva.....	392
General detection of microbial contamination in technical fluids J. E. Langbein, C. Hein, A. Spielvogel, D. Lorenz, U. Stahl, D. Oberschmidt and E. Uhlmann.....	397
How industrial microbiology could be used to teach biotechnology Javier Méndez Viera, Joan C. Ferrer and Josep M. Fernández-Novell.....	402
<i>In silico</i> protein interaction analysis of <i>Saccharomyces cerevisiae</i> Mnn2p using the Global Proteome Machine Database F. Teixidó, I. Corbacho, I. Olivero and L. M. Hernández.....	407
Influence of carbon and nitrogen source on the chitin and chitosan production by <i>Rhizopus arrhizus</i>–Factorial design Lucia Raquel Ramos Berger, Thatiana Montenegro Stamford-Arnaud, Thayza Christina Montenegro Stamford, Adriana Almeida Antunes, Marta Cristina de Freitas da Silva, Carlos Eduardo V. de Oliveira and Galba Maria de Campos-Takaki.....	412
<i>In-vivo</i> evaluation of fibersol-2 desalted by yeast and calcium chelated fibersol-2 A. O. Bangoura, F. Touré, L. Traoré, H. Qian and S. Baldé.....	417
Isolation of thermophilic actinomycetes producers of thermostable proteases I. Hristova, P. Nedelcheva, A. Gushterova, D. Paskaleva and A. Krastanov.....	423
Kinetics survives of <i>Escherichia coli</i> in Tryptic Soy Broth (TSB) under high hydrostatic pressure. Fitting a mathematical model, prediction and validation of a experimental nonlinear model Samuel Lima Jácome, Daniela Saucedo Reyes, M ^a Dolores Rodrigo Aliaga, Manuela Vaz Velho and Antonio López Martínez.....	427
Plasmid copy number quantification by spectrofluorometry Belén Mendoza-Chamizo, Rocío González-Soltero and Emilia Botello.....	432
Production of Bacitracin by <i>Bacillus licheniformis</i> (UCP 1010) using media with different concentrations of milk serum A. M. Vieira, A. A. Alencar, L. L. P. Tavares, E. C. Vasconcelos, K. Okada, G. M. de Campos Takaki and C. A. Alves da Silva.....	437
Removing potential radionuclide deposits from metal and concrete surfaces by fungal erosion and metal acquisition: The start of a green technology in decommissioning of nuclear facilities G. Gramss.....	442
Sulfate reducing bacteria — An important agent for bio-fouling in cooling water system of fertilizer industries N. J. Naik and P. B. Desai.....	447
Ultrasonic waves: Bioeffects on yeast cells R. N. Domingos, D.F. de Angelis, R. N. Domingos, C. R. Corso and A. A. Menegario.....	451
Medical and Pharmaceutical Microbiology. Antimicrobial Agents and Chemotherapy	
Activity methanolic extracts of <i>Azadirachta indica</i> (A. Juss) on <i>P. gingivalis</i> L. E. Villarreal-García, A. Oranday-Cárdenas, M. A. de la Garza-Ramos, C. Rivas-Morales, M. J. Verde-Star and J. A. Gómez-Treviño J. Alberto.....	457

An investigation of disinfectant resistance gene in hospital isolated Gram-negative bacteria Didem Kart, Melike Ekizoğlu, Ceren Özkul, Dolunay Gülmez and Meral Özalp.....	461
Antibacterial activity against multi resistant bacteria strains of alkaloid extracts of two Algerian <i>Fumaria</i> species F. Maiza-Benabdesselam and N. Bribi.....	464
Antibacterial biofilms based on calcium caseinate incorporated with carvacrol M. P. Arrieta, M. A. Peltzer, M. C. Garrigos and A. Jiménez.....	469
Antibiotic activity and anticancer potential of a new <i>Nonomuraea</i> sp. strain PT708 originated from Thai cave soil N. Nakaew, R. Sunghong, J. J. Ortega-Calvo and S. Lumyong.....	474
Antibiotic and disinfectant resistance in <i>Acinetobacter baumannii</i> genotyped isolates from the Caracas University Hospital A. Chalbaud, Y. Ramos and G. Alonso.....	481
Antimicrobial activity of <i>Pimpinella anisum</i> seed extract H. Nor' Aishah, N. Mohd Zaini and M. Haslinda.....	486
Antimicrobial susceptibilities of <i>Porphyromonas</i> and <i>Prevotella</i> species isolated from periodontitis infections in the north of Portugal C. Pina, S. Cunha, R. Silva, J. C. Sousa and I. Lopes Cardoso.....	492
Antimicrobial susceptibility and quinolone resistance mechanism of <i>Arcobacter butzleri</i> isolates from sewage samples in Spain A. González, R. González and M. A. Ferrús.....	495
<i>Candida</i> species isolated from human infections from Tunisian and Portuguese patients: Molecular identification and <i>in vitro</i> antifungal susceptibility assessment A. P. Maduro, G. Szmyd, A. Pereira, H. M. Martins, C. Dhieb, N. S. Zouaqui, F. Teles and M. L. Martins.....	500
Characterization of <i>Bacillus thuringiensis</i> strains under the umbrella of Brazil–Cuba cooperation on bioinsecticides Y. R. Baró, M. E. Marques, D. M. F. Capalbo, I. S. Melo, Orietta Larrea-Vega and I. O. Moraes.....	505
Characterization of <i>Staphylococcus aureus</i> isolated from healthy children in Portugal H. Schmid, N. Lôpo, A. Castro, J. Silva and P. Teixeira.....	509
Comparison among different sample treatment methods for analysis of molecular weight and concentration of exopolysaccharide produced by <i>Haemophilus influenzae</i> type b F. O. Cintra and M. Takagi.....	513
Detection of IgM and IgG antibodies against <i>Mycobacterium tuberculosis</i> in students Faculty of Dentistry, University of Nuevo Leon, Mexico A. M. Garza-Garza, J. C. Llodra-Calvo, A. Y. Arce-Mendoza, M. A. de la Garza-Ramos and M. Á. Quiroga-García.....	518
Detection of microorganisms in patients with Brackets MBT and Alexander M. J. Gamez-Salas, L. Lau-Rojo, M. de L Verdugo-Barraza and M. A. de la Garza-Ramos.....	522
Determination of antimutagenic properties of Rosmarinic acid, a phenolic compound isolated from <i>Mentha longifolia</i> ssp. <i>longifolia</i> with yeast DEL assay Medine Gulluce, Derya Yanmis, Furkan Orhan, Tuğba Bal, Mehmet Karadayi and Fikrettin Şahin.....	526
Determination of chemical composition and antibacterial properties of essential oil of <i>Mentha longifolia</i> ssp. <i>longifolia</i> against phytopathogenic bacteria Derya Yanmis, Arzu Gormez, Sedat Bozari, Furkan Orhan, Medine Gulluce, Guleray Agar and Fikrettin Sahin.....	531
Endophytic <i>Streptomyces tubercidicus</i> isolated from <i>Solanun lycocarpum</i> St Hill: A sheriff secondary metabolites producer R. P. Ratti, A. C. Granato, C. O. Hokka, A. C. Badino-Junior, L. C. P. S. Lima and C. Paiva de Sousa.....	536

Identification of metabolic states and their relation to operational conditions in urokinase production by HT1080 Cells K. Subramanian, S. Kumar and J. Gomes.....	541
<i>In situ</i> assessment of antibacterial activity of dermaseptine S4 derivatives against <i>Pseudomonas fluorescens</i> nascent biofilms by using ATR-FTIR spectroscopy F. Humbert, S. Saadi, F. Quilès and K. Hani.....	547
Inhibitory synergism effect of citric acid, citrus oil and nisin on growth of <i>Escherichia coli</i> Iriani Rodrigues Maldonado and Eliana Janet Sanjinez-Argandoña.....	551
Molecular analysis of community-acquired methicillin-resistant <i>Staphylococcus aureus</i> isolated from skin and soft tissue infections, Botucatu Medical School, Brazil M. Fávero Bonesso, P. Y. Faccioli-Martins, S. Alencar Marques and M. L. Ribeiro de Souza da Cunha.....	556
Quorum sensing inhibitors from epiphytic bacteria isolated from wild berries Suha Mujahed Abudoleh and Adel M. Mahasneh.....	561
Specific detection of <i>Aspergillus</i> species in blood from patients with invasive aspergillosis L. Filipe, A. P. Maduro, P. Ribeiro, C. Damião, F. R. R. Teles and M. L. Martins.....	567
<i>Streptococcus intermedius</i> can modulate the expression of some virulence factors in <i>Porphyromonas gingivalis</i> M. A. De La Garza-Ramos, A. L. Luna-Ayala, M. Garza-Enriquez, D. S. Martinez-Carreón, B. Pereyra-Alferez and R. G. Caffesse.....	571
Study of the antibacterial activity of acetone extracts of <i>Thapsia garganica</i> L. growing wild in Algeria Ait Sidhoum Djaffer, Hihat Yasmina, Touati Malia, Saidani Karima and Bedjou Fatiha.....	575
Study of the antimicrobial activity of four algerian marine algae species Saidani Karima and Bedjou Fatiha.....	578
The control of oral Streptococci biofilm formation by the help of probiotic strains Arezoo Tahmourespour and Sanaz Tahmourespour.....	582
Validation of specific oligonucleotides for the detection of enteropathogenic (EPEC) and enterotoxigenic (ETEC) <i>Escherichia coli</i> strains isolated in a Mexican region M. Navarro-Arias, M. L. Ramírez-Martínez, E. E. Avila and P. Cuéllar-Mata.....	586

Microbial Physiology, Metabolism and Gene Expression

Biochemical and morphological studies of yeast <i>Rhodotorula rubra</i>. Sensitivity to cyanide, antimycin A, salicylhydroxamic acid, and to antibiotics Ezzatollah Keyhani.....	593
Carotenogenesis induction with hydrogen peroxide in <i>Xanthophyllomyces dendrorhous</i> colored mutants A. Barbachano-Torres, A. C. Ramos-Valdivia, C. M. Cerda-García-Rojas, L. M. Salgado-Rodríguez, C. Flores-Ortiz and T. Ponce-Noyola.....	598
Characterization of a new <i>Saccharomyces cerevisiae</i> dsRNA virus encoding a killer toxin with broad antifungal activity M. Maqueda, N. Rodriguez-Cousiño, R. Esteban, E. Zamora and M. Ramírez.....	603
Copper tolerance in <i>Marinobacter hydrocarbonoclasticus</i> — Proteomic analysis of the periplasm Célia M. Silveira, Manolis Matzapetakis, M. Gabriela Almeida and Sofia R. Pauleta.....	608
Ecological distribution of <i>Saccharomyces</i> killer yeasts in south-western Spain M. Maqueda, E. Zamora, M. L. Álvarez and M. Ramírez.....	613

Evaluation of fermentative performance of <i>Candida guilliermondii</i> in sugarcane bagasse hemicellulosic hydrolysate detoxified with activated charcoal or vegetal polymer L. C. S. Chaud, D. D. V. Silva and M. G. A. Felipe.....	617
Expression analyses of oxidative stress <i>katA</i>, <i>katG</i> and <i>oxyR</i> genes in <i>Erwinia amylovora</i> in the viable but nonculturable state R. D. Santander, J. D. Oliver and E. G. Biosca.....	624
How different culture conditions affect cellular stresses in the biofilms Angel Villegas Natalia, Arce Miranda Julio Eduardo, Becerra María Cecilia, Baronetti José Luis, Ravetti Soledad, Sotomayor Claudia Elena, Albesa Inés and Paraje María Gabriela.....	629
Monitoring of the inorganic polyphosphate accumulation and acid and alkaline phosphatase activity in <i>Cunninghamella elegans</i> strains using factorial design Luciana de Oliveira Franco, Thayza Christina Montenegro Stamford, Marcos Antônio Barbosa de Lima, Rita de Cassia Carvalho Maia, Tânia Lúcia Montenegro Stamford and Galba Maria de Campos-Takaki.....	636
<i>Saccharomyces cerevisiae</i> plasma membrane dicarboxylate transporter is a probable sensor of extracellular pH D. A. Aliverdieva, D. M. Mamaev and L. S. Lagutina.....	640
Taxonomy of sterol-degrading species of the genus, <i>Rhodococcus</i> Joseph Kreit, Rajae Elamrani, Marouane Melloul and Aziz Elalami.....	644

Biotechnologically Relevant Enzymes and Proteins

Adsorption of xylanase II from <i>Trichoderma reesei</i> QM 9414 on several polymers J. A. Cañas, S. Higuera, V. Cuevas, A. Portillo, G. Lopez, A. Bañares-Hidalgo and P. Estrada.....	653
Characterization of chitin-degrading bacterium isolated from pruning tree compost Junko Ueda, Mitsuhsa Watatani and Norio Kurosawa.....	658
Impact of agitation on metabolic heat in Biological Real Time Calorimeter (BioRTC) and product formation of <i>Aspergillus tamaris</i> by submerged fermentation Balaji Dhandapani, Surianarayanan Mahadevan and Asit Baran Mandal.....	663
Newly identified LAGLIDADG homing endonucleases in the chloroplast LSU rDNA of <i>Coccomyxa</i> algae R. Álvarez, A. del Hoyo, L. M. Casano, E. Barreno and E. M. del Campo.....	668
Protease production by <i>Bacillus licheniformis</i> in the presence of industrial wastes D. S. Gomes, M. A. Silva, A. A. Antunes, L. A. Sarubbo and A. A. Salgueiro.....	674
