

Seminario de Investigación en Microbiología Aplicada y Biotecnología

“20 Years of Research in Industrial Microbiology and Biotechnology”

Prof. S.A. Shojaosadati

Professor of Industrial Biotechnology, Biotechnology Group, Chemical Engineering Department,
Faculty of Engineering, Tarbiat Modarres University, Iran.

- **Production of Conventional Microbial Products and Recombinant Protein Production (High Cell Density Cultivation “HCDC” of recombinant E. coli for production of Human Growth Hormone, various types of Interferon's, Interleukin 2, hGM-CSF).**
- **Environmental Biotechnology (Biofiltration, Bioremediation, and Biodegradable Polymers Production)**
- **Solid State Fermentation (Process Development, Modeling, and Use of novel Substrates).**
- **Nanobiotechnology**

Organiza

Colabora

Contactos:

Grupo de Microbiología enológica, edáfica y acuática.
Aplicaciones biotecnológicas de la biodiversidad microbiana.

Dr. Manuel Ramirez (mramirez@unex.es)

Dr. Isaac Corbacho (icorbacho@unex.es)

**SALÓN DE ACTOS DEL EDIFICIO DE BIOLOGÍA
LUNES 30 DE NOVIEMBRE DE 2009, 12:00
ASISTENCIA LIBRE**
