General Aspects and Assessment of ICT use in Education

An experience to define the enterprising attitude as a transversal competence in the European Higher Education Area <i>R. D. Márquez Ruíz, R. A. Moreno Castillo, C. González Escalante, R. Espejo Mohedano, and E. Herruzo Gómez</i>	3-7
Between access and use: a case-study on technology mediation in a school environment <i>M. Cristina Ponte, Ana M. Jorge, and Daniel S. Cardoso</i>	8-12
Breaking the digital divide and social integration. <i>Okike Benjamin</i>	13-15
CaCoCu: a multimedia channel to disseminate the contemporary culture as a source of educational materials <i>J. L. Bernier, S.G. Mendoza, M. Barchéin, and I. Rojas</i>	16-20
Communication Channels of a b-learning experience in Higher Education <i>D. Rodríguez García, M. Lucero Fernández, and M. Montanero</i>	21-22
Difficulties Encountered In Introducing The Use Of Information Technology In Teaching By Young Years Computer-Assisted Learning Center, Inc For The First School Year, June 1999 To March 2000 <i>C. R. Perez, F. M. Zamora, A.C. Corona, and A.R. D. Paner</i>	23-23
Digital Inclusion Program of the Government of Parana / Brazil <i>Almeida, N.P.</i>	24-27
Discourse analysis of blended teaching and learning and its implications for the teachers and students in Hong Kong <i>Zhichang Xu</i>	28-33
Education in the Global Knowledge Society: Crossing Borders with the Intel® Education Initiative <i>T. Osburg and A. Todorova</i>	34-37
Electronic tutorial for educational computer networks. <i>B. Sus and J. Guerra</i>	38-40
Engaging Young Children in an Emergent Literacy Curriculum Using Microsoft® PowerPoint™: Development, Considerations, and Opportunities <i>C. Blum, H. P. Parette, and E. H. Watts</i>	41-45
Evaluating elearning – from the satisfaction level to evidence of skills in the workplace <i>J. Reis Lagarto</i>	46-50
Evaluation of the IKASYS programme <i>K. Santiago, J.F. Lukas, J. Etxeberria, and A. Gobantes</i>	51-54
Examining online learning processes based on log files analysis: A case study <i>Galit Ben-Zadok, Arnon Hershkovitz, Rachel Mintz, and Rafi Nachmias</i>	55-59
Formative and peer-to-peer evaluation using a rubric tool <i>M. Cebrián de la Serna</i>	60-64
Gender awareness in media education <i>Jiří J. Pavlíček</i>	65-69

ICT for Counseling and Careers Guidance Services <i>E. Palomba</i>	70-73
ICT-based learning projects and programmes of ZAWiW <i>Ralph Schneider</i>	74-76
Managing Storage Systems in an Educational Environment <i>F. Nunes, S. Falcão, and A. Carneiro</i>	77-81
On-line course instructional design from the professors' pedagogic knowledge and technological abilities <i>L. McAnally-Salas1, G. Lavigne, and C. Armijo de Vega</i>	82-86
Open Content as Reusable Learning Objects: Leveraging the Commons for Multimedia Instruction <i>Wan M. Fauzy and Nur Hussein</i>	87-91
Organisational learning, real-time documentation and on-site analysis — towards intelligent organisations: a case study on team sport <i>O. Kivinen, J. Hedman, and P. Kaipainen</i>	92-96
PC Architecture Learning through the Combination of Hardware Examination and the Use of System Information Software <i>L. J. Herrera, F. Rojas, R. García Bermúdez, H. Pomares, and A. Guillén</i>	97-101
Personal information management <i>M. Caninaerts1, R. Deslé, and F. Truyen</i>	102-107
Project-based learning with ICT: changes in ecology classroom in primary school <i>G. Bautista and A. Escofet</i>	108-112
Regional educational policy and their effects on pedagogical innovation supported by ICT integration in schools <i>J. Valverde Berrocoso, E. López Meneses, and J. Montero Melchor</i>	113-117
RSS and Vodcasting for Undergraduate Design and Technology Students: Mobile Learning Scenarios, Issues and Challenges <i>M.R. Hepburn and A.R. Hodgson</i>	118-123
School as a learning organisation: the specific contribution of the Information and Communication Technologies (ICT) <i>Paulo Cunha and António J. Neto</i>	124-128
Studies in Assessment of Multi-Media Technology in Ways of Expression on Virtual Image <i>Shang-Tsung Yang and Yu-Ting Lin</i>	129-133
The Relationship between Self Report of E-Class Use and Students' Perception at Democritus University of Thrace <i>N. Vernadakis, P. Antoniou, V. Derri, M. Giannousi, and E. Kioumourtzoglou</i>	134-138
The Specifics of the Teacher's Education Adapted Towards New Technologies <i>Felipa Lopes dos Reis and António Eduardo Martins</i>	139-143
The survey of using ICT for international cooperation administration in education <i>J. Fabuš and I. Kremeňova</i>	144-148
Theory, praxis and assessment of computer games for young schoolchildren <i>M.A. Paín, P. Edwards, E.M. Domínguez, and P. Reyes</i>	149-153

Two decades of ICT Policy in Education. Changing discourses. Changing practices? <i>A. Ornellas, J. A. Sánchez Valero, K. Alonso and O. Molto</i>	154-157
Voting technology, PowerPoint and interactivity: problems and possibilities <i>T. Haydn</i>	158-161
Web system for the Academic Tutoring of Egressed Students <i>J.A. Pérez Mata, C. González Escalante, J.I. Benavides Benítez, J. Gómez Luna, and E.Herruzo Gómez</i>	162-166

Pedagogical Strategies in ICT Education

A dynamic, web-based approach for developing intercultural communication <i>Gilberte Furstenberg</i>	169-171
An Educational Strategy Based on Information Technologies and the Collaboration between Academy and Industry for Software Engineering Education and Training <i>R. Juárez-Ramírez, G. Licea Sandoval, C. Cabrera-González, and S. Inzunza-Soberanes</i>	172-176
Application of innovative instructional practices using ICTs to favour collaborative learning in Higher Education <i>I. Cuadrado Gordillo and I. Fernández Antelo</i>	177-181
Assessing assessment <i>P. Peres, M. Moreira Silva, and C. Tavares</i>	182-186
Back to the Future: The Power of Traditional Teaching with Modern Communication <i>B.Mulligan</i>	187-190
Challenging multiple perspectives within e-learning contexts: a scenario-based approach for the design of learning activities <i>M. Kordaki</i>	191-195
Designing Distance Hypermedia Courses <i>Amar Balla, Nabila Bousbia and Hakim Amrouche</i>	196-200
Embedded pedagogy in scripted-media objects— a partial solution to the reusability paradox <i>P.C.Whalley and K.A.Quick</i>	201-205
Embracing and enhancing ideas as a strategy for ICT education <i>E. Stefanova, P. Boytchev, N. Nikolova, E. Kovatcheva, and E. Sendova</i>	206-211
IICT model: a pedagogical strategie for education <i>S. Silva Cruz and A. Amorim Carvalho</i>	212-216
Innovative-didactic program complex as a facility of realization of new paradigm in education <i>Yuldashev Z.Kh. and Ashurova D.N</i>	217-220
Knowledge or content? The philosophical boundaries in e-learning pedagogical theories. <i>N. S. A. Silva, G. J. M. Costa, S. Rogerson, and M. Prior</i>	221-225
Mastering skills using ICT: An active learning approach <i>N.M. van Diepen, Eliza Stefanova, and Malgorzata Miranowicz</i>	226-233

Personalisation of Learning <i>Kateřina Kostolányov, Jana řarmanov, Jana Kapounov, and Ondřej Takacs</i>	234-237
The changing vision of an e-teacher: a retrospective <i>C. Armijo de Vega, L. McAnally-Salas, and S. Ojeda Benitez</i>	238-242
The Contextually-Partitioned Web: An Investigation into the Role and Use of Structured Collabularies in Digital Repositories as Information Filters to Improve the Web User’s Experience <i>J. C. Samuel, J. M. Hinson, and J. L. Sanson</i>	243-246
The Copyright Law of e-Learning in Czech legal Frame <i>S. Hubackova and M. Ruzickova</i>	247-249
Time Management in E-learning <i>Tomas Foltýnek and Arnost Motycka</i>	250-254
Virtual Learning Space WebCT and Podcasting <i>S. Hubackova</i>	255-257

Language Learning

A Software System for Learning the Vocabulary and Collocations: Results of a Training Experiment <i>Pavel Diachenko</i>	261-266
Asynchronous user communication and management tools in the <i>InGenio</i> e-learning platform <i>J. M. de Siqueira, A. Gimeno Sanz, and A. Martínez Sáez</i>	267-271
b-learning in classics: a pilot online course for the study of the ancient Greek grammar <i>D. Vlachopoulos and P. Gómez Cardó</i>	272-277
Concept of Educational Design for Serious Games <i>B. Holm Sørensen</i>	278-282
Contrast and validation of computer assisted language testing in Chinese students learning Spanish <i>J. M. de Siqueira, D. González, J. García Laborda, and T. Magal Royo</i>	283-287
Developing literary literacy: reading hyper-literature in English language classes <i>Rita Baleiro</i>	288-291
Multidisciplinary ICT based learning in practice <i>C. Tavares Ribeiro and C. Oliveira Martins</i>	292-296
The inhibition of mother tongue interference in foreign language speech perception and production - a proposed solution for European university students <i>Anthony Stenton</i>	297-303
The use of wikis in the writing of branching stories in a foreign language class <i>N. Moreno</i>	304-308

Software Content Creation and Teaching and Learning Strategies in Science and Engineering

A Descriptive e-Learning Environment for Mathematics <i>P. Semião</i>	311-314
A methodology and a framework proposal for competitive learning in programming courses <i>R. Neves Madeira, Bruno Silva, and C. Grueau</i>	315-319
A model for effective real-time entry of mathematical expressions <i>Marco Pollanen and Michael Reynolds</i>	320-324
An Interdisciplinary Environment for Science Learning <i>S. Cuomo, B. D'Aniello, A. Murano, and E. Saulino</i>	325-329
An on-line experiment: Solar Cell I-V Characterization <i>A. Neveu, A. Legendre, O. Martínez, J. Adiego, M. A. González and V. Parra</i>	330-334
An On-line Introduction to Special Relativity with Experimental Support. <i>Anibal Rodriguez Gomez and Jonas Torres Montealban</i>	335-337
Chemistry education with podcasts. Strategy and effectiveness <i>N. Miranowicz and M. Miranowicz</i>	338-341
CmapTools free software Use for implementing Chemistry Concept Maps with Teacher Training Students <i>C. Aguirre Pérez</i>	342-346
Collaborative Concept Mapping by Using CmapTools: Supporting Conceptualisation and Learning in Higher Education <i>M. Pehkonen, I. T. Koponen, and T. Mäntylä</i>	347-351
Competency and skills training for Internet use of standards and procedures databases in the aeronautical industry <i>M. G. Del Rio-Cidoncha, J. Martínez-Palacios, R. Ortiz-Marin, L. García-Ruesgas, and M. L. Balsa-Anaya</i>	352-356
Considerations on Pupils' Feedback Concerning the Use of Virtual Experiments in Science Teaching <i>L. M. Gorghiu, G. Gorghiu, C. Dumitrescu, R. L. Olteanu, A. M. Suduc and, M. Bizoi</i>	357-361
Development of courseware for early school years' science education <i>Ana Cristina Torres and Rui Marques Vieira</i>	362-365
Educational experiences with interactive whiteboard in teaching Natural Sciences <i>Małgorzata Bartoszewicz</i>	366-370
Exploring Chemistry Using Virtual Instrumentation – Challenges and Successes <i>L. M. Gorghiu, G. Gorghiu, T. Alexandrescu, and L. Borcea</i>	371-375
ICT – Competencies in Mathematics and Informatics <i>Hans-Stefan Siller and Karl Josef Fuchs</i>	376-381
ICT use in science Education <i>B. Jarosievitz</i>	382-386
Imparting psychomotor skills to the learners using computer aided instructions in Engineering Education <i>R. Mishra, S. Barrans, and C. Pislaru</i>	387-391

Integrating Technologies in Linear Algebra Lectures <i>M. Pires and M. G. Marques</i>	392-396
Interesting Chemistry – A Multimedia Task Collection Types of Inorganic Compounds <i>H. Gulińska</i>	397-401
Interface design of a virtual laboratory for mobile robot programming <i>U. Borgolte</i>	402-406
LON-CAPA - An Open-Source Learning Content Management and Assessment System for the Sciences <i>Gerd Kortemeyer</i>	407-411
Multimedia software as support for a self-explaining visit path in science museum: the “Domus Archimedeia” experience. <i>M. Bianucci, R. Fieschi, L. Gambarelli, C. Mantovani, and S. Merlino</i>	412-416
New Practices of Learning Using Adjustable Software <i>E. Rodrigues, J. Moreno, and D. Grilo</i>	417-420
Playing with science in the kindergarten <i>C. P. Barbosa, M. C. Martins Gonçalves, A. A. Almeida, J. B. Oliveira, J. Miranda, J. Soares, P. Martins, D. R. Fernandes, R. Fontes, M. A. Sá, A. Guerra, A. T. Esteves, R. Almeida, C. Leite and M. J. Martins</i>	421-425
Promoting and teaching “hard” science in an amusing way: the “Domus Archimedeia” approach to Greek mathematics <i>M. Bianucci, R. Fieschi, L. Gambarelli, C. Mantovani, and S. Merlino</i>	426-430
Simulated physics experiments developed in the frame of the VccSSe European project <i>W. Tlaczala, M. Mazanka, M. Zaremba, A. Zagorski, and G. Gorghiu</i>	431-435
Strategies for a Web-based Mathematics Course <i>P. Semião</i>	436-439
Student patterns of interaction in asynchronous online discussions: Implications for teaching and research <i>Judith B. Pena-Shaff</i>	440-445
Study of uniform torsion in beams using matlab virtual laboratory <i>J.M. Martínez-Jiménez, P. Martínez-Jimenez, A. Martínez-Valle, JM Martínez-Valle, M. Varo Martínez, and R. Castro Triguero</i>	446-450
Using ICT to enhance knowledge about sound <i>Maria Teresa Soares and Paulo Cunha</i>	451-456
Using VLEs to support student centred learning in Control Engineering Education <i>C. Pislaru and R. Mishra</i>	457-461
Virtual environment for the management of mathematical knowledge <i>A. Soberanes Martín and M. Martínez Reyes</i>	462-466
Virtual physics laboratory for distance learning developed in the frame of the VccSSe European project <i>W. Tlaczala, M. Zaremba, A. Zagorski, and G. Gorghiu</i>	467-471

Technologies in the Service of Education

Mobile Learning Using Text-To-Speech Technologies <i>O. Zbozhna, H.-R. Vatterrott, A. Martens, and D. Tavangarian</i>	554-557
Multilevel Collaborative Framework for Implementation of E-learning System. <i>S.G. Jadha and G. N. Shinde</i>	558-561
Organization of the argumentative text in a blended-learning environment <i>A. de Sousa de Pinho and L. Álvares Pereira</i>	562-567
Safeguarding the User - Developing a Multimodal Design for Surveying and Raising Internet Safety and Security Awareness. <i>L. Gjedde, R. Sharp, P. Andersen, and H. Meldgaard</i>	568-571
Semantic Annotation and Tagging in the KP-LAB environment: mining the learning and knowledge dynamics. <i>A. Locoro, A.M. Scapolla, D. Grignani</i>	572-576
Specifications and standards for use of educational digital content <i>Alenka Kavčič</i>	577-581
The retrieval of educational contents in mass media <i>María Luisa Sevillano García, Raquel Varela Méndez, and Sonia Santoveña</i>	582-587
Tools for Synchronous Communications in Collaborative Knowledge Practices Environment (KPE) <i>I. Furnadzhiev, V. Tchoumatchenko, T. Vasileva, M. Lakkala, and M. Bauters</i>	588-592
VirtLab: Virtual Laboratories in Federated Environments <i>José Quintino Rogado</i>	593-597
Virtual environment in Civil Engineering education: Construction of a wall, a bridge and a roof <i>Alcinea Z. Sampaio, Pedro G. Henriques and Carlos O. Cruz</i>	598-602
Visual Model Editor for Supporting Collaborative Semantic Modeling <i>C. Richter, H. Allert, V. Tchoumatchenko, T. Vasileva, L. Ilomäki, and Kari Kosonen</i>	603-607

Virtual Worlds

Exploring the real possibilities for virtual conferencing during student teacher field experiences <i>Kathleen Nolan and Art Exner</i>	611-615
Knowing culture in <i>Second Life</i>: international literacy and the technological know how in a virtual world <i>Sean William John McMinn</i>	616-621
Virtual reality on the web: the 21st Century World project <i>Nicoletta Adamo-Villani, Eric Johnson, and Tyler Penrod</i>	622-626

N. Padilla Zea, J. L. González Sánchez, and F. L. Gutiérrez..... 629-634
- How To Take Care of an Alien? New Multimedia Games for Teaching Algorithmic Concepts in Primary Schools**
M. Weigend..... 635-639
- Learning experiences by using video game consoles**
M. Garay Serrano, M. Gaspar Rodríguez, J.E. Agudo Garzón, and H. Sánchez Santamaría..... 640-645

e-Portfolio

- Electronic portfolios in teacher education: Does sequence matter?**
S. D. Arnold and D. De Vito..... 649-653
- E-portfolio : a pedagogical tool for the design of personal and professional student project**
S. Mailles-Viard Metz and H. Albernhe-Giordan..... 654-658
- Evaluation of learning based on transverse competences. Design and development of the e-portfolio in an online university**
E. Barberà, G. Aguado, and A. Roderà..... 659-664
- Portfolios for Business English**
Lut Baten..... 665-669
- The practical application of e-portfolio at the Open University of Catalonia: assesment of competence based learning.**
Elena Barberà, Magí Almirall and José Mora..... 670-673
- Tutorial experience on learning environments using e-portfolio**
M. G. Del Rio-Cidoncha, J. Martínez-Palacios, L. García-Ruesgas, and R. Ortiz-Marin..... 674-677

Vol. 2

Methods and Environments for Education and Training

- A platform for sign language content presentation**
Stavroula-Evita Fotinea and Eleni Efthimiou..... 681-685
- A Virtual Environment Designed for Shoe Design Training**
Aura Mihai , Mehmet Sahin, Gökhan Yalcin, Mariana Pastina..... 686-693
- An innovation perspective for the creation of teaching/learning environments based on groupware applications**
M.V. Hurtado, M.L. Rodríguez, K. Benghazi, M. Noguera, C. Rodríguez and J.L Garrido..... 694-698
